

SIDE AWNING

CALYPSO ROLL

Standard features and important information

- Cassette with 2 wall brackets.
Pull profile with a handle in the frame colour, 2 wood types or stainless steel (additional charge) available.
Optionally pole 1, pole 2 or wall bracket included in basic price. Flexible pole up to max. projection 400 cm available at additional charge.
- Fixing materials not included in delivery.
- Please note that the vertical position of the fabric may result in slight sagging of the fabric edges.
- Side awnings can only be used as a wind guard if combined with the WPS system (up to wind strength 5/wind class 2). Without WPS system: wind class 0.
- For information about wind strengths, see page 7 (without WPS system wind class 0).
- Multicolour stripes in acrylic, polyester: TEMPOTESTSTAR LIGHT and GROOVE always run vertically. PRECONSTRAINT 302 block stripe designs run horizontally.
- Fabric height = cassette size -10 cm (for SOLTIS -13 cm)
- The roller at the pull rod serves as an aid to removal (cannot be combined with flexible pole). It can only be used as an aid to retraction if the substrate is not inclined.
- From defined sizes the systems in acrylic, polyester: TEMPOTESTSTAR LIGHT and GROOVE, PRECONSTRAINT or SOLTIS are fitted with stiffeners.

Frame colour options

Powder coating white aluminium	RAL 9006
Powder coating pure white	RAL 9010
LEINER LOUNGE dark grey	

Special colours

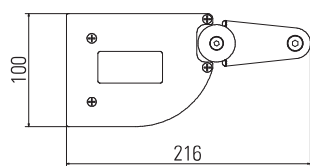

All other RAL colours: additional charge, see price section
All other LEINER LOUNGE colours: additional charge, see price section

All other colours (e.g. NCS): additional charge, feasibility and delivery period on request
